### **Instructions for Cross-Listing a Course**

**Cross-listed** courses have identical names, credit/clock hours, course numbers, description, and requirements. Only the departmental prefix is different. A course form must be submitted to APC for each cross-listed course. The original department “controls” the course. Forms for all cross-listed courses must be received in order for the course to be placed on the APC agenda. It is the responsibility of the department initiating a cross-listed course to assure a form is submitted for each cross-listed course.

### **Instructions for Multi-Level Courses**

**Multi-Level** courses are taught to different levels of students (undergraduate, graduate, & professional) in one classroom. Lectures are the same but students have differing requirements based upon student level (undergraduate, graduate, and professional). Separate APC forms carrying course numbers (4000 for undergraduate, 5000 & 6000 for graduate, and 7000, 8000, & 9000 for professional) and syllabi specific to the student level and must be submitted for *each* course. A memo explaining how the requirements differ should accompany the submission to APC. Professional students must have satisfied the requirements equivalent to a bachelor’s degree as determined by their academic program prior to enrollment in a multi-level course.

### **Description of Instruction Modes:**

**Traditional: Face-To-Face Contact:** Instructors interact with students in the same physical space 75% or more of the instructional time.

**Hybrid - Mixed FTF (Hybrid):** Instructors interact with students in the same physical space less than 75% of the instructional time with the remainder of the instructional time provided through distance or correspondence education (including D2L).

**Distance:** Content is offered 100% online or via interactive video. Distance is defined as using one or more of the following technologies to deliver instruction to students who are separated from the instructor and support regular and substantive interaction between the students and the instructor, synchronously or asynchronously. The technologies may include:

- (i) the internet
- (ii) one way and two way transmissions through open broadcast, closed circuit, cable, microwave, broadband lines, fiber optics, satellite, or wireless communications devices
- (iii) audio conferencing; or (iv) videocassettes, DVDs, and CD-ROMs, if the videocassettes, DVDs or CD-ROMs are used in conjunction with any of the technologies listed in clauses (i) through (iii).

**Independent/Directed Study:** Instructors interact with students individually through a flexible format.

**Correspondence:** Instructors interact with students through mail or electronic interface according to a typically self-paced schedule.

**Internship/Practicum:** Internships or practica experiences for which credits are awarded. Submission should provide brief summative information about the internship or practicum.

### **Description of Class Components:**

**Lecture/Discussion:** A class where formal discourse is the primary means of instruction. This includes face-to-face and or synchronous/ asynchronous delivery.

**Laboratory:** A class where testing, experimentation, or practice occurs.

**Clinical:** A class involving observation or treatment of patients.

**Internship/Practicum:** A class that provides practical experiences for advanced students or graduates in a professional field.

**Seminar:** A class where a group of students gather with an instructor for a course of study.

**Independent/Directed Study:** A class where the instructor works with the student as an individual.
